

Support at Home Common Price List

Every two months, the Australian Government requires us to publish the most common price paid by our clients for Support at Home services. The most *common price* refers to the price charged most frequently over the previous two months – it is not an average, nor is it the highest or lowest price charged. Pricing may vary depending on the type of service provided and where the service is delivered.

For current pricing, see our Support at Home Price List on our [website](#) or the My Aged Care [website](#).

This fact sheet shows our common prices for July to August 2026.
